

The project

„Animals I like“

There are many animals around us. The wild animals are: a giraffe, an ostrich, an elephant, a crocodile and many others.

Domestic animals are; cats, dogs, hens, cows, pigs so on.

My favourite animals are; dogs, kangaroos, rabbits and cats.

Elephant can work in a circus. They are huge, heavy and fat, but they are kind and talented. Animals can ride a bicycle, play and jump, roller-skate in the circus.

The most interesting bird and the smallest bird in the world is the humming bird. The largest fish is the whale shark. We like animals very much.
